COLORADO PEOPLE FLEE FROM FIRE

FOREST BLAZES RAGE IN THE FOOTHILLS.

Fifteen Hundred People Are Homeless and Seeking Refuge—Snow Storm Adds to the Terrors of the Situation—Tennessee Fires Are Still Burning Fiercely.

DENVER, Colo., Nov. 16.—Two million dollars in property and eight miles of timber went up in smoke in the foot hills of Boulder county yesterday, and at midnight there was little prospect of the flames being checked. A furious snow storm has set in, but this only adds to the terrors of the situation, for there are from 800 to 1,500 people homeless and flying before the flames, which threaten to block their path every moment. The towns of Gold Hill, Ward, Sunset and Copper Rock were in the path of the fire, and the latter is the only one of which anything remains. Among the destroyed property are some of the best mines in the county, but their condition can not be learned as yet, as there is no means of communicating with the district except through the fugitives who are arriving in the valley towns. Late reports from Ward say the town can not possibly be saved. Ward has a population of 1,000, Gold Hill 500, Copper Rock 300, while all the way through the hills are small settlements that are not down on the map. Many of the families escaped from the flames by seeking refuge in mining tunnels until the fire swept past, when they emerged and made their way to the valley, tired and exhausted. At 4 o'clock in the afternoon a heavy wind came from the west and the thermometer went down 30 degrees, accompanied by a snow storm. Among the important mines at Gold Hill for which fears are expressed are the Alliance and Cash Beekin. A courier reports the destruction of about one half of the property of Camp Talcott and Prussian mine and mill. The timber around Gold Lake has been swept bare by the flames. Many people are reported injured.

BOULDER, Colo., Nov. 16.—Over 300 men are fighting the fire approaching West Gold Hill, which seems to sweep everything before it in its trend of the mountains and through the valley ranches. Women and children are arriving in this city for protection and the scene is one of excitement and destruction. Sunset will be wiped out before morning if the wind continues in that direction. Ward is said to be safe. One life is reported lost.

TENNESSEE FOREST FIRES.

Lives Lost and Much Property Devoured by the Flames.

JACKSON, Tenn., Nov. 16.—Forest fires are raging near this city and adjoining towns. At Millington a negro, Fannie Woods, was in her cabin when it caught fire and the flames approached so rapidly and enveloped the house so completely she was unable to escape. Another victim was a 9-year-old boy, son of Pitt Ray. The remains of a map were discovered near Big Creek bottom, but his identity is unknown. Vast fields of cotton have been burned and miles of fences destroyed. A train of fifteen cars loaded with cotton on the Tennessee Midland railroad caught fire as it was leaving the city, and before the flames could be stopped and the cars removed out of danger one containing forty bales was completely destroyed.

Many Men Thrown Out of Work.

WILKESBARRE, Pa., Nov. 16.—The large breaker over No. 3 mine of the Delaware and Hudson company at Plymouth was entirely destroyed by fire last evening. The upsetting of a coal oil lamp was the cause. The breaker has an output of 600 cars a day. Six hundred men are thrown out of work. The loss is \$160,000. It will take eighteen months to rebuild the breaker.

Five Men Badly Scalded.

MUNCIE, Ind., Nov. 16.—Shortly after 6 o'clock last evening five men were dangerously scalded and burned in an explosion at the Muncie muck bar mill. A stream of hot mud, boiling water and steam was thrown out the length of the mill, and five men, who were standing in the line of the steam, fell to the ground either burned or cooked. They were carried to their homes, where a number of physicians were summoned. It is thought two of them will die. The factory was slightly damaged. The men injured all have families.

Can't Settle Railway Problem.

SPRINGFIELD, Ill., Nov. 16.—The state grange wrestled all the forenoon yesterday over the transportation problem and finally laid the entire subject on the table. The committee on transportation reported in favor of government ownership of railroads and an animated discussion followed. An amendment recommending the present syndicate ownership but government control of railroads was adopted, and then the whole subject was laid on the table. It will be called up again.

Fear a Revolt Among Poles.

VIENNA, Nov. 16.—Advices received here convey the information that Gen. Gorkov, governor of Warsaw, who declined to permit a delegation of residents of Warsaw to attend the czar's

funeral, has reported to Czar Nicholas that the attitude of the Poles justifies the proclamation of a minor state of siege.

TURNING THE TABLES.

Gen. Nieh Says He Drove Back Japanese at Malien Lung.

TIENTSIN, Nov. 17.—Gen. Nieh reports he was attacked at Malien Lung Nov. 11 by the Japanese troops and he succeeded in repulsing them. The Chinese general adds the Japanese made a second attack upon the positions he occupied Nov. 12, but it appears the Japanese were again repulsed, and the Chinese pursued them towards Fungu Wang, which Gen. Nieh expected to reach soon after sending his report. The similarity between this reported defeat of the Japanese and the defeat they are said to have sustained at Motien on the road to Peking would make it appear that the two engagements may be identical. Reports from Port Arthur say the Japanese have not yet captured Talien Wan. It is also reported a portion of Gen. Sung's army have recaptured Kinchow and the Japanese have been driven out of Motien on the road to Aeking by the Chinese, who afterwards pursued them for several miles.

W. C. T. U. CONVENTION.

Executive Committee Meets to Prepare for Session at Cleveland, Ohio.

CLEVELAND, Ohio, Nov. 16.—Yesterday was a lively day among the ladies of the National Woman's Christian Temperance union. The executive committee held a protracted meeting at noon in the Hollenden parlors. Miss Willard presided. The discussion related wholly to the work of the coming convention, which begins today. The national vice-presidents also held a meeting to provide plans for certain work in the convention.

It is announced that Neal Dow would not be present on account of illness. This announcement was a great disappointment, because he was billed for a lecture and was to be a great attraction for the convention. Up to last evening about 500 delegates had arrived to attend the convention.

National League Proceedings.

NEW YORK, Nov. 16.—The National league took some important action yesterday. After nearly five hours' work magnates voted to rescind the 10 per cent assessment rule. It was also decided that each club competing in a championship game shall draw 50 per cent of the net receipts. The abolition was carried by a vote of 7 to 5. President Young was re-elected for the three years next ensuing. Mr. Young was elected secretary and treasurer by the national board. The national board, consisting of A. H. Soden, C. H. Byrne, and President Young, was re-elected. There will be no change from a twelve to an eight club circuit. Nothing of the American association has turned up.

Schaefer Gains on Ives.

NEW YORK, Nov. 16.—The fourth night's play in the 14-inch balk line billiard match between Schaefer and Ives began last night with Ives far in the van. Schaefer succeeded in reducing the discrepancy in the scores somewhat, making two brilliant runs. The score:

Ives (1,800)—8, 81, 0, 0, 17, 177, 49, 0, 59, 118, 3, 22, 58, 0, 10—2,400.
Schaefer (1,082)—28, 2, 6, 244, 16, 34, 0, 149, 62, 45, 7, 104, 12, 2—1,798.

Averages—Ives, 42.6-7; Schaefer, 54.9-18.

Calls on Secretary Gresham.

WASHINGTON, Nov. 16.—The Chinese minister, accompanied by two of his suite, called on Secretary Gresham yesterday. In view of the pendency of negotiations for United States mediation between China and Japan, the call occasioned much comment, although the officials and diplomats said it was without significance.

Recall of Bismarck the Best Plan.

BERLIN, Nov. 16.—The Vossische Zeitung says: "If it be true Chancellor Hohenlohe seeks Prince Bismarck's advice it would be better to recall Bismarck in order to clear the situation. Probably Bismarck, in the present circumstances, does not desire to become a responsible minister, preferring to criticize from afar."

Majors Will Contest.

LINCOLN, Neb., Nov. 16.—It is now asserted on good authority that there will be a gubernatorial contest in Nebraska. It is said the committee will file the necessary papers before Nov. 26, the date on which the time for beginning a contest expires. Many leading republicans oppose the contest.

Miners May Withdraw.

PITTSBURG, Pa., Nov. 16.—The action of General Master Workman J. R. Sovereign and General Secretary-Treasurer John W. Hayes of the Knights of Labor in refusing to seat the delegates of the miners to the general assembly, at New Orleans, may lose the miners to the Knights of Labor.

COL. COIT IS HELD BY THE CORONER

JURY BLAMES THE MILITIA'S COMMANDER.

Their Verdict Declares Him Responsible for the Washington Court House Tragedy—Dastardly Work of Two Tramps—Attempt to Wreck a Train Near Elgin, Ill.

WASHINGTON COURT HOUSE, Ohio Nov. 16.—Sheriff Cook, Oct. 17, called on Gov. McKinley for a detachment of state militia to help him guard W. Dolby, a colored man. The prisoner was taken from the jail to the court house and sentenced to twenty years in the penitentiary. On account of the large crowd on the outside of the court house the militia, 100 strong, was afraid to attempt to take the prisoner to the train. He was kept in the court house, and at 6:30 p. m., while some persons were pounding on the court house door, the militia, which was on the inside, fired through the doors into the crowd, killing five and injuring twenty persons. Since then Coroner Edwards has been holding an inquest. Col. Coit refused to come here and testify. Last evening the coroner rendered a verdict, finding that the men killed were innocent of any crime, and intimating they were victims of the haste of the sheriff and Col. Coit, in charge of the militia. Coit's evidence was not heard. Some great questions will arise in this case, such as to how much provocation the national guard must first have before firing to kill in an effort to save property or the lives of prisoners. Some say a special grand jury will at once be empaneled to investigate the charges against Cook and Coit.

Attempt to Wreck an Alton Train.

JOLIET, Ill., Nov. 16.—The St. Louis and Kansas City express on the Chicago & Alton road that left Chicago at 11:30 Wednesday night, arriving at Joliet at 12:55 yesterday morning, ran into a pile of ties piled on the track about a mile from this city. The train was coming at such a rate that the engine pushed the ties a hundred rods before a stop was made. The train was badly damaged. No arrests followed. It is thought Chicago car wreckers are at the bottom of the scheme.

Tramps Slug and Rob the Aged.

HAMMOND, Ind., Nov. 16.—Tuesday afternoon three tramps who have been camping near Tolleston for some time went to the home of August Berger, aged 72, and after binding him hand and foot beat him with a heavy bludgeon until he was insensible. They then ransacked his little house and secured about \$40. Then they went to the home of Mrs. Mary Fulgraf, whom they maltreated in the same manner. Mrs. Fulgraf is badly gashed and may die.

HEAVY LOSS OF LIFE.

Ships Sink and Go Ashore on English Coasts—River Avon Is High.

LONDON, Nov. 16.—Stormy weather and floods continue to prevail over the south part of England, and the loss of life and damage to property is increasing greatly. At Bath, Somersetshire, the River Avon has reached the highest point of the century. Thousands of people are homeless and are being fed by the authorities in various schools and other public buildings. Dispatches received here from Dover say that the gale is blowing with renewed violence. Several ships have been washed ashore along that portion of the coast. Many ships have been driven ashore and their crews drowned.

Strikers Battle for Scanty Food.

NEW YORK, Nov. 16.—Yesterday at a meeting of the striking cloakmakers a dozen loaves and a box of herring were ravenously consumed by the poor fellows, who fought like tigers for a share of it. When the striking bakers heard of this, one of their number announced that to-day he would bake 500 loaves for distribution among the hungry cloakmakers. A conservative estimate of the amount of money that has already been lost in wages to the striking cloakmakers placed the aggregate as close to \$750,000. The manufacturers estimate their losses at over \$5,000,000.

Attempt to Lynch Murderers.

BRUSSELS, Nov. 16.—Several men accused of the brutal murder of an innkeeper were being conveyed to the prison by the gendarmes when a crowd attacked the escort with the object of securing the prisoners and lynching them. YOKOHAMA, Nov. 16.—The newspapers here resent Great Britain's offer of intervention, which they regard as entirely a movement in behalf of China. They add that Great Britain's influence in the east is in jeopardy by this offer, which wounds Japanese feeling. The newspapers of this city say that the defenses of Port Arthur are reported to be stronger on the land side than on the sea front. Fully 100 guns are said to be in position. BOSTON, Mass., Nov. 16.—The new state quarantine regulations which have gone into effect and which are of the greatest importance to western cattlemen, mark the second stage of the active warfare against tuberculosis in cattle recently inaugurated by the state officials. Under these regulations every state and territory in the union, together with Canada, Great Britain, Mexico and South America, have been declared by the officials to be infected districts and from to-day until the regulations are lifted not a single animal can come into the state except through the quarantine stations at Watertown, Brighton and Somerville. All infected animals are at once to be slaughtered and the state will pay to the owners of such stock one half of their value.

Subject Discussed by Prof. Harper and Others.

DETROIT, Mich., Nov. 16.—"The Interpretation of the Old Testament as Affected by Modern Scholarship," was the question before Baptist congress yesterday. It was vigorously treated from the standpoint of the radical or "higher criticism," the conservative or strictly orthodox, and from the medium or mediator's point of view. The principal speakers were Prof. J. R. Sampey of Louisville, Ky., President Harper of Chicago University, Professor Brown of Newton Theological seminary, and President Osgood of the Rochester Theological Institute. Each speaker announced unequivocally his conviction as to there being certain historical errors in the Old Testament, but each declared its function as the word of God to man through men strengthened rather than impaired by modern criticism.

MILWAUKEE MILITIAMEN ARE ALL PLEASED.

Paper Commending His Appointment As Adjutant General Is Liberally Signed at the Cream City—Col. Caldwell May Be Named As Assistant.

MILWAUKEE, Nov. 16.—Officers of the National guard in Milwaukee are unanimous in their endorsement of 'captain Charles King for the office of adjutant general of the state. A circular is now being presented to all the officers for signatures. It is not a petition for Captain King's appointment, but is an endorsement of the appointment. There is some speculation as to who will be assistant adjutant-general to succeed William B. McPherson. There are several candidates, among them Colonel Caldwell, of W. itewater, who the Milwaukee military men seem to think has a very good chance of being appointed. Major Zweitsch is a favorite for quartermaster general.

THE KNIGHTS OF LABOR.

General Master Workman Sovereign Makes His Annual Address.

NEW ORLEANS, La., Nov. 16.—The afternoon session of the Knights of Labor convention began at 2 o'clock yesterday and adjourned at 5:30. General Master Workman Sovereign delivered his annual address, which was an exhaustive and elaborate resume of the work of the order from its inception. He attributed the decreased membership of the order to the depression in business circles, prevalent bankruptcy, low wages and forced idleness of the laboring classes. He said that he had traveled 35,464 miles since his stewardship had begun and had organized eleven new assemblies and made ninety-seven public addresses. He characterized the writ of injunction from the United States Circuit court of the eastern district of Wisconsin as a despotic injunction.

Referring to the American Railway Union affiliations, he advised a coalition with this as well as all labor organizations. His resume of the Pullman strike terminated in severe criticism of Major-General John M. Schofield and the recommendations of that officer for an increase of the army. He urged that the assembly take strong grounds against an increase of the military force of the nation, and that they "advocate a decrease in the regular army and the abolition of the state militia, for from them are coming to the surface the sentiments of a military despotism."

Since the death of Alexander III, he has been advised by friends that, with the accession of the new czar, his restoration to rank and fortune is practically assured. Should this be done, not only will Nowy receive his title and estate but, under the law, the accumulation of this property during all these years will also be his.

WHEELING, W. Va., Nov. 16.—There are no noteworthy developments among the miners, the West Virginia men being apparently content to await a meeting of their fellow workmen in Ohio and Pennsylvania. OUR HOME MARKET IS BEST OF ALL

MILLION AND A HALF INVESTED IN STOCKS.

Local Merchants Are the Ones Who Make the Town and They Should Get the Benefit—Rivalry All Right But Jealousy Is Dangerous to a Community.

Did you ever stop to think how much money Janesville merchants have invested in their stocks in trade? Well it will foot up to a million and a half of dollars exclusive of the capital employed in extending to their merchants a line of credit. This constitutes the stock of our home market. Much is being said and written now-a-days about this home market, and the verdict of popular opinion, as recently expressed, seems to strongly endorse the sentiment of protecting it. The Gazette desires to bring the question down to more narrow limits and say a few plain things about the Janesville market, for Janesville and Rock county people. Has it ever occurred to you in walking up and down the streets with which you are so familiar and looking into the places of business where the same faces greet you, year after year, that fortune has favored you, in permitting your lot to be cast in a goodly heritage, when not only the necessities, but the luxuries of life are within your grasp.

The business houses of Janesville merit more than passing notice. They have stood the ups and downs of inflation and depression in a manner that denotes integrity and stability and reflects credit to the city in a marked degree. Go where you will throughout the state, or the northwest for that matter, and you will find it difficult to parallel the business houses of the city that is always a source of pride and satisfaction to her inhabitants.

The dry goods' interests are represented in round numbers by stocks worth \$300,000. The lady is indeed fastidious and difficult to please, who finds it necessary to seek another market for anything in this line.

Fully \$150,000 is invested in clothing and furnishing goods and yet occasionally some resident of the masculine persuasion goes to the Windy City for a business suit.

About \$75,000 represents the stocks of boots and shoes handled by a wide-awake class of merchants, in stores that would be a credit to any city.

At least \$100,000 is a low estimate of the capital used by the hardware men, and where will you find more complete stocks of goods, or better prices than in the home market?

Seventy five thousand dollars buys a world of furniture, and yet fully that amount is invested in Janesville, in stores that are emporiums managed by men of experience, ever on the alert to satisfy the demands of trade.

Twenty-five thousand dollars represents the capital required to supply the groceries, meats and provisions necessary to meet the demands of the Bower City, while \$75,000 in jewelry contribute to the happiness of the inhabitants.

All Lines Well Represented. Sixty thousand dollars in drugs well distributed, keeps the people in perfect health, and \$50,000 in books and stationery contribute to the general intelligence.

The \$100,000 invested in lumber, handled by an accommodating class of dealers, and aided by two good building associations, has made possible the 800 new houses scattered over the city in the last few years.

Two hundred thousand dollars more will scarcely cover the stock of crockery, millinery, confectionery, bakeries, harness, and a list of smaller dealers. This investment of \$1,500,000 in merchandise stocks, outside of manufacturing industries, means that Janesville is the best market in the world for Janesville people. There is every reason why this market should be patronized, at the exclusion of all others. The merchant who goes out of town to buy his wife a dress has no right to complain of dull trade. The reciprocal relations close at home, are well worth consideration, and while a spirit of independence is commendable, yet the very important fact remains, that the prosperity of any city is founded on individual prosperity.

Any man who envies the success of a neighbor, even though he is a competitor, fails to recognize this very essential truth, that envy never brings wealth and contributes nothing to happiness.

Patronize the home market, say a good word for every man in business, allie the spirit of ambition and enterprise to master the seeds of prejudice and narrowness as it has to a large extent in Janesville and prosperity will continue to crown honest effort in still greater degree.

George W. Smith Taken to the Waupaca Soldiers' Home.

George W. Smith, an indigent veteran of the war, was taken to the Soldiers' Home at Waupaca to-day, he being escorted by Chief of Police Ahleson. Veteran Smith is unfortunate, in that he is too fond of liquor, besides being an opium eater to such an extent as to completely unnerve him. His comrades here, after carefully investigating the matter, wisely determined that the Waupaca home was the right place for him. His wife, who is also addicted to the same habits, will probably be cared for by relatives in Illinois.

MERCHANTS FEEL ENCOURAGED.

All Business Is Picking Up and Confidence Is Returning.

Janesville merchants were never in better spirits than at the present time, all hailing the return of confidence in the business circles, stability in the commercial laws, and increasing trade. Many merchants report that trade is increasing more rapidly than any had anticipated, and they are looking forward to a speedy resumption of all business, especially that of manufacturing, and consequently a lively fall and winter trade. Judicious advertising is also having the effect of helping to make things hum.

HUMANE SOCIETY ARE AT WORK

Parties Who Abuse Dumb Animals Will Be Brought Up Standing.

Officers of the local humane society are on the watch for parties in the habit of abusing and neglecting the proper care of dumb animals. Yesterday a man was hauled on Milwaukee street, who was driving a poor and lame animal, and warned that in case he did not put the animal in better care and cease using it while lame, he would be prosecuted.

COUNTY BOARD HAS ADJOURNED.

But Little Business Except Routine Matters Were Considered Today.

The county legislature adjourned today until January. Aside from the resolution designating the First National bank as the county depository, no business of special interest was considered, the session being occupied with routine work, the auditing of claims, and hearing reports from the various committees.

MILTON MEN TALK OF INCORPORATING

MANY IN THE VILLAGE FAVOR THE MOVE.

Petition Likely to Be Drawn Up Before Very Long—Brilliant Wedding Performed at the Junction—News From Other Towns About the County of Rock.

MILTON, Nov. 16.—The time has arrived when this village should be incorporated and a movement in that direction should be started this winter. Many believe that a large majority of our citizens are in favor of incorporation and would so express themselves if they were given the opportunity. We hope someone will prepare a proper petition at once and circulate it. Henry Harris and wife started Wednesday for California, where they will spend the winter. The King's Daughters have fitted up rooms in the gentlemen's hall in very good style, which they will use for work rooms. They held their monthly sessions in the G. A. R. hall as heretofore. They are under obligations to the college authorities for their new rooms. W. W. Clarke is selling a seven jewel stem wind American watch for \$4. Mrs. Helen Puffer, past president of the W. B. C. of Monroe, inspected the A. D. Hamilton corps Thursday evening. She was the guest of Mrs. P. M. Green while in town.

Postage stamps that will not "stick with a lick" are making much trouble for the public and post office officials. D. Y. Berkalew has been on the sick list, but is now able to be about. Farmers were numerous here Tuesday. They came after big loads of bran for their milch cows. Mr. Lohmyer sold a car load of cows here Wednesday. Prices ranged from \$16 to \$45. At the annual election of officers of the Epworth League held Tuesday evening, the following were elected: President, Mrs. Ida Gifford; first vice president, Miss Effie Smart; second vice president, Mrs. Clara Gifford; third vice president, W. A. Thompson; fourth vice president, C. A. Richardson; secretary, Miss Grace Rogers; treasurer, Miss Lizzie Jackson. Mayor H. B. Tanner of Kaukauna, who is a candidate for State Oil Inspector, is a nephew of K. W. Tanner of Milton Junction. H. C. Saunders, who has been spending some months at his farm in Iowa, returned Wednesday. R. Richardson came up from Chicago yesterday and will enjoy a three months' vacation with his family. On Wednesday, the St. Paul company started an era of economy here. C. S. Swan, the baggage master and general utility man, got a lay-off and the section foreman, Mr. Burrow, had his section extended so that he is now in charge of the track from Lima to Rock River, with one man under him. This reduction in help will prove to be false economy, as the present force cannot do the work to do the work to the satisfaction of the public or the company. Oscar Crumb has the lumber on the ground for his new house and expects to build it this winter. Dawson & Co. shipped a carload of live hogs from this station Thursday.

WEDDING AT THE JUNCTION.

Alfred Henderson, of Edgerton, and Miss Frink Wedded—Other Items.

MILTON JUNCTION, Nov. 16.—A brilliant wedding was solemnized at the home of Mr. and Mrs. Horace Frink, Wednesday evening, Nov. 15, at 6 o'clock, when Rev. Stephens, of the Methodist church, said the magic words which made Alfred Henderson, of Edgerton, and Miss May Frink, of this place, husband and wife, in the presence of over seventy invited guests. The house was beautifully decorated with plants and flowers. Perrin Frink, of Janesville, and Miss Lottie White, of Edgerton, attended the bride and groom. The bride looked lovely in white china silk, with white roses. Her attendant was dressed in pink. An elaborate supper was served, the waiters being Ella Frink, Florine Ogden, May Livingston, and Edith Palmer. The presents were elaborate. Thursday at noon the happy couple had their pictures taken as they stood during the ceremony. Misses Josie and Tena Holton of Stoutington; Mrs. Beaton, Miss Sara Porter, Messrs Lou Dickinson, Charley Hutson, Allen Skinner, Fred Henderson, Robert Green, Robert Maltress, Misses Lottie White, Hettie Henderson, Mr. and Mrs. J. O. Henderson, and Mr. and Mrs. W. J. Henderson, of Edgerton; George Skinner and Mr. and Mrs. J. D. Holmes, of Janesville; Mrs. Dora Butts, of Delavan; and Andrew Pepper, of Rockdale, were the out of town people who attended the Henderson-Frink wedding. Elmer Barnes of Fort Atkinson and Clara Garthwaite of this place are to be married this evening by Rev. George W. Burdick at the residence of the bride's father, Lucius Garthwaite. Thursday night Rev. Stephens went to Albion and united in marriage Miss Fanny Davis whose parents live at Albion but who has been living at this place and Thomas Stone of this place. The young couple will go to housekeeping on the Daggett home. Fred Garthwaite and Battie Hull were married last Thursday and immediately went to housekeeping at Rock River. Report says Rollin Burdick has gone to Leonardville, N. Y. Ed. Coon has been under the weather this week, the result of lifting too much heavy furniture. By the way Coon & Shaw say they have sold more goods and collected more outstanding debts since election than in a month before. Mrs. H. E. Miner, and Mrs. George W. Burdick are making an elegant curtain for the rostrum of the church,

this week, and are talking of having the chairs newly upholstered. Dr. Charles Kelly has gone to Albany to practice his profession. Jonathan Palmeter, of Albion, passed through the Junction Friday and stopped a while between trains. Otis Kelly and family left for Augusta, this state, on Monday, where they will make their future home. The I. O. G. T. intend giving a public entertainment in the near future. Mr. and Mrs. Will Sowle visited Edgerton Tuesday night. Allie Button has returned from a visit at Wonowoc, Wis. Mrs. Irving Clarke has moved into the chamber of the house occupied by Martin Field and wife. Mrs. Ellsworth, who has been sick for several weeks, is able now to sit up for a couple of hours each day. Her many friends hope she may continue to improve. Mr. and Mrs. Herbert Coon and son Earl, of Janesville, attended the Frink-Henderson wedding here Wednesday night. There is not much going on but weddings at the Junction at present. Four within a week by our young people and more to follow. The Junction has seen the happy uniting of ten pair within one year; seven of them within the last two months. What town can do better?

ORFORD W. F. M. S. ELECT OFFICERS

Mrs. Eliza Taylor Made President and Miss Ida Taylor Secretary.

ORFORDVILLE, Nov. 16.—The November meeting of the W. F. M. S. of Orfordville was held in the basement of the Methodist church. Dinner was served to a very pleasant company and at 2 o'clock the meeting was called to order by the president and opened with devotional exercises. The regular order of business was soon completed and the following officers were then elected for the ensuing year: President, Mrs. Eliza Taylor; recording secretary, Miss Ida Taylor; corresponding secretary, Mrs. B. F. Gifford; treasurer, Mrs. A. C. Huyke; chaplain, Mrs. Mary Gavey; organist, Mrs. Ella Jones; assistant secretary, Mrs. Ellen Gavey; first vice president, Miss Emma Dayton; second vice president, Mrs. E. J. Taylor; third vice president, Mrs. M. J. Mowe. The audience room of the Methodist church has put on a new dress. New curtains, a new carpet and new chairs for pulpit and choir make it look very pleasant, and the ladies of the society are happy over the result of their labors.

Mrs. Jackson is on the sick list. Henry Cox made a business trip to Oregon. Dr. Redwolf, who makes his headquarters at George Lackner's, made a visit to Albion recently. Mrs. J. C. Hurd attended church in Edgerton Sunday. There are no democrats in this town since election. They say the Ladies Aid society will hold their fair some moonlight night in December. J. K. Chamberlain and wife are visiting their daughter, Mrs. Goodrich near Fort Atkinson. Mrs. R. Call and Miss Dana took tea with Mrs. Ed. Johnson.

GAS NEARLY KILLED ARTHUR E. BADGER

THE INJURED MAN WAS FOUND UNCONSCIOUS.

As He Lay in Bed Suffering From the Fearful Injury that Cost Him His Left Arm a Leaky Stove Let Loose the Death Dealing Fumes.

Gas nearly killed Arthur E. Badger as he lay on his bed at his Pearl street home last night suffering from the effects of the fearful accident that deprived him of his left arm.

When the family retired last night they shut the stove up tight below and also closed the upper dampers. There was no outside escape for the gas generated by the blazing coal and it filtered through the opening about the doors filling the room. When Dr. Palmer arrived he found all the inmates of the house suffering from the effects of the gas. Mr. Badger who is in a very weak condition, from the wound he received was most effected and was unconscious when found. Hard and prompt work saved his life, but it was a close call for a wholesale fatality.

In the former case the proprietor was fined \$50, and in the latter the proprietor and clerk were fined \$50 each. A resolution was passed notifying all dealers of prosecution if they sell Paris green illegally.

In other words, to exhibit fortitude when enduring bodily pain is, of course, praiseworthy, but sufferers from rheumatism would undoubtedly forego the praise which the exercise of this Spartan virtue calls forth, to obtain prompt and easy relief. It is at their very threshold in the shape of Hoste-ter's Stomach Bitters, which arrests this formidable disease at the outset, and acts as an efficient anodyne upon the afflicted nervous system. Take time by the forelock if you feel rheumatic twinges, and give them a quietude at once. Rheumatism is, reader, you may perhaps not be aware, liable to attack the heart. Many a man and woman with a heart thus attacked has promptly "shuffled off this mortal coil." The Bitters is also an excellent remedy for kidney trouble, malaria, constipation, debility, neuralgia, sleeplessness and dyspepsia.

THE LABOR CONGRESS.

The congress of conciliation that is now in session in Chicago is noted for an array of talent rarely if not ever excelled. Among the foremost speakers is Joseph D. Weeks, editor of the American Manufacturer and Iron World. Mr. Weeks is a man of wide experience and thoroughly qualified to intelligently handle the subject.

He said in part when a man stands face to face in a broad way with the labor question, how insignificant his most eloquent words, how utterly futile his profoundest talk becomes, in the face of that thing which has so much to do not only with a man's physical condition, but with his political condition and that condition in which he exists in relation to his maker! Man cannot be happy, the state cannot be secure, religion cannot lead man to his highest hope or fulfill his profoundest aspirations, when the labor question and the wage question is not properly settled.

There are only three relations that a man can bear in this world—one is to his maker, one to his fellow man, and one is to his world; and no one of these will advance while the other halts. No one of the relations that man can bear to his environment can ever improve unless they all improve at the same time.

Take a notable instance in the history of this world. Centuries ago, one midnight, a race of slaves stood girded waiting for the word to come that should send them out of the land of their bondage, and they founded the Jewish republic. They elevated labor, they elevated religion, they elevated politics when they went home from that home of bondage. When man enthralled shall stand before his maker a man, when that hour shall come when the blessed ethics of the carpenter's son shall become the ruling principles of the world, that hour shall also bring the hour when men shall simply work, and justice shall be done between man and between employer and between capital and labor.

Now what is the question of wages? It is a question of distribution of products. If you will pardon me, I will take issue with the statement that what the laborer wants is more profit. The laborer has nothing to do with the profit.

There are certain parties that unite to produce a certain thing that we call a product; and when this is produced it does not belong to any one of them, it belongs to all of them. Those three things are capital, which furnishes the money to buy the raw materials, to pay labor, to put in the machinery, to buy the land, to organize the work and go on with it. The employer may or may not be the capitalist. There is one place where we make a great mistake. We always think of the employer and the capitalist as the same. They are not the same. Theirs are distinct functions. The employer may or may not be the capitalist, and in modern industries the employer only represents the capitalist. Take these great corporations, the one who actually becomes the employer, the man in the management of the concern, is very rarely the capitalist. He may be part of the capitalist, but he is very rarely the entire capitalist. The employer stands between the capital and the laborer, who puts his handiwork, or his skill, or whatever it may be into reproduction. Now the laborer is not the only producer. All three are producers and all three unite to produce a given product.

The wages of capital is interest, the wages of the employer is profit, and the wages of the laborer is what we term in the ordinary sense wages. Now this question, how to make this distribution properly? I hardly ever saw a man in my life who, when he came to divide with another man, thought the division was fair. You go to the old schools of political econ-

omy and they will say it must be settled by competition. The doctrine of laissez faire is the only thing that has brought it right. It is eternal law, it has existed from all eternity and it will exist through eternity; and any attempt to interfere with the doctrine of unrestricted competition, with the doctrine of laissez faire, is perfectly useless; you cannot do it. You cannot have anything, you cannot have any legislative enactment, you cannot have any agreement; you must simply put the laboring man into the contest with the employer, and each will inevitably seek his highest good, and you will get the thing at its best. This is the gospel of grab, and I do not believe that the gospel of grab is in accordance with our civilization.

I do not believe either in strikes or lockouts. Strikes and lockouts settle nothing. I have pointed out that it is differences you wish to settle, and a strike or lockout simply decides, as a rule, which can hold out the longest. It does not settle anything. It simply puts two parties together, and the one on the one side, if he has a long purse and the other on the other side, if he can stand starvation. It gradually comes to a point where the purse gives out or the party can starve no longer, and then the battle is at an end, not because anything has been decided, not because right has prevailed, but simply because it has come to a point where human endurance gives out.

I do not believe that the legislatures can determine what is a fair day's wage for a fair day's work. They have tried to do it. There is a body of legislation on the English statute books to which, after all, we must look for our history of labor. There is a body of legislation on those books for centuries that had tried to settle this matter by legislation, and those legislators have never succeeded, and they never will succeed. Legislation may come in and form bodies that can do something towards this end in a voluntary way, but there can be no such thing as has been talked here so many times, and the settlement of these disputes with legislative sanction—I am speaking now, of course, of future rates of wages—with legislative sanctions to enforce a decision. If you compel a man to work at a price he doesn't want to work at, that is a slavery. If, on the other hand, you compel a man to pay wages he doesn't want to, that is confiscation. You cannot do it. It is not in the nature of things, at least in this country, to have it done. If a workman will not work you cannot send him off to jail. There are not jails enough in the country to hold him, and you cannot put a manufacturer or capitalist in jail if he will not pay the wages you say he shall pay. His works will stop entirely then, and if you take his works and go on with them then you have confiscated them. That is all there is to it.

In closing, Mr. Weeks recommends the peaceable settlement of labor troubles by a candid and careful consultation between employer and employee, and in large corporations by committees fairly representing both sides. If his views could be adopted, labor disturbances would speedily pass away and a reign of peace and general prosperity would ensue.

A dispatch from St. Louis says "The train on the Mobile & Ohio railroad, which left the Union station at 8:35 Tuesday evening carried as passengers nearly a dozen families bound for Alabama, where they intend to establish a community which is to be conducted strictly on the single tax idea. All these people are members of what is known as the Fairhope Industrial Association, which was organized and incorporated at Des Moines, Iowa, last February, for the sole purpose of putting to a practical test and illustrating, if possible, the advantages to be derived from a single tax government. The community is to be started in Baldwin county Alabama."

This is one of the encouraging signs of the times. If the fanatics of Iowa and several other western states will colonize in Alabama or Australia, it would be a good thing for the country at large, and any state from which they migrate can afford to contribute liberally to the venture.

WANTS SNOW TAKEN OFF OF WALKS

Citizen Complains that the Law Is Not Properly Enforced.

EDITOR GAZETTE: If people were snowflakes, as one of our hustling merchants puts it, I think some of our Janesville everyday working people would be content to wade through snow and slush a little while if they could feel that they were thereby, with the aid of the sun's melting rays, extinguishing city officials who have not the time or inclination, to enforce the law concerning the cleaning of sidewalks after each snow storm. The condition of our streets the winter through is a disgrace to the city. Now that winter is again approaching cannot something be done to arouse an interest in this matter, and walking be made a healthful pleasure instead of a slippery dangerous necessity? Some people seem to think if some of the snow is scraped off the top the walk is cleaned. That perhaps is better than no effort, but far from satisfactory. If each resident would try for the coming winter, keeping the walks clean, and property owners where no one resided compelled to have them cleaned, I think every pedestrian would so thoroughly enjoy it that our walks would never again be left in the deplorable condition they have in winters past. Let all try it this winter and note the result.

FIGHT OVER CIDER TO END IN COURT

JOHNSTOWN LANDLORD TO BE ASKED TO EXPLAIN.

A Row On Election Day Grew Out of a Transaction In Which E. Brotherton, Stephen Fanning and His Two Sons As Well As Cider and Fists Mingled.

THERE was quite a fight out at Johnstown on election day and the true facts will undoubtedly be brought out in the court on November 23. This morning Officer Cochrane arrested Landlord E. Brotherton on a warrant sworn to by Stephen Fanning, charging him with assault and battery. It is claimed the old man Fanning and his two sons went into Brotherton's hotel on election day and called for cider. The two boys were given the apple juice, but the old man was refused. Brotherton claimed that the elder Fanning was drunk enough, and he would not allow him to have more. The Fannings took exception to this ruling, and the scarp commenced, resulting in the arrest of the landlord on charge of assault and battery. The case will attract more than the usual attention, as some additional light may be thrown out.

THE Rusk Lyceum met Wednesday with Frank McNamara, 101 Pearl street. A very enjoyable meeting was held. The debates are growing better and more interesting at every meeting. Two new members were initiated. The club will meet next Wednesday evening with Fred Blakeley, 303 Glen street. The subject is "Protection and Free Trade." The leaders are William Hamilton and Thurston Blakeley. A very interesting debate is anticipated.

COMPLETE organization of the Imperial minstrels will be perfected at the meeting to be held at the band rooms at 7:15 o'clock tonight and a full attendance is requested. It is the intention to have thirty-eight or forty people on the stage in the first part and the mandolin orchestra will be a large one reinforced with a harp. Much interest is shown in the project and all hands are working hard for its success.

CLEVELAND's minstrels gave a very creditable performance at the Myers Grand last evening, and pleased a good sized audience. Some jokes were old, but the majority of them were crisp and new. The singing was good and the comedy work was of a very amusing character. Cleveland always carries a good company, and last night's performance did not injure his reputation.

It is never a tale of woe that anybody has to tell about a watch bought of A. F. Hall & Co., "the reliable jewellers." They show a fine line of the best movements, and have all kinds of cases; and Hall & Co.'s low prices are getting to be too well known to need mentioning.

It is getting to be too well known to need mentioning, the immense stock of solid silver, and the low prices at which A. F. Hall & Co., "the reliable jewellers" are selling it. Have you noticed the display in their Milwaukee street show window.

MIDWAY Pleasance now presents a very lively appearance. Lowell, the hustler and slayer of high prices is selling out the Holloway & Johnson hardware stock at 50 cents on the dollar. The best cooking and heating stoves for half price.

NEVER in the history of the city have the people had an opportunity to purchase stoves and hardware as cheap as now at Holloway & Johnson's. Lowell Hardware Co.

JOHN BOETTCHER of Sullivan shot at a pheasant, but the load in the gun went into a tree about six inches from the muzzle and burst the barrel. Boettcher will live.

TWELVE more days it will be to buy stoves and hardware at the Holloway

ICE FULL OF GERMS IS WHAT WE'LL GET

NEW COUNTY SEWER MAY CAUSE TROUBLE.

Sewage Would Flow Into the Part of the River that Ice Companies Use and Render It Unfit For Domestic Use—Dr. Palmer's Note Awakens Discussion.

EDITOR GAZETTE:—What will the citizens of Janesville do for ice in the future? The conveyance of the sewerage from the county buildings into the river will contaminate the water so that ice harvested in the usual places will be totally unfit for domestic purposes and injurious to the public health.

HENRY PALMER. The Gazette received the above communication this morning from Dr. Palmer who, as everybody knows, always has his eyes open for the benefit of the community. As is suggested by the doctor's note, the matter is a grave one. There is but little current, and the sewerage from the county buildings with their scores of inhabitants, will be floated down the stream and lodged against the dam, where it will be a standing menace to the public health.

Freezing will not help matters any, as the cold will not kill the germs of disease that will lurk in the flood from the county sewer. The damage to the ice business and the menace to health are both serious questions. Janesville cannot get along without ice but the crystal cakes will cease to be a joy in the summer when they are freighted with the germs of death from the sewer. The question is a grave one, and one that should be looked into.

Ice Company Stirred Up. Peoples Ice Company and the Ferris Ice Company are both stirred up over the thing and in all probability they will take whatever steps are possible to prevent the damage to their business.

The sewage from the county sewer would pour into the river less than three miles from the place where they are compelled to cut ice. This not far enough away for the sewerage to be absorbed or done away with by the action either of the water or air, as would be the case if it had further to flow before striking an obstruction or reaching water that was used for the purpose of harvesting ice.

Ice gathered at the usual place after the sewer is built, will be good enough to cool beer or for use in refrigerators, etc., but for domestic use no one will care to buy it. Dr. Palmer was called upon by a Gazette reporter soon after his communication was received, and in response to a question, he said that the danger was a grave one.

"I once knew of a case in Pennsylvania when an epidemic of typhoid fever broke out," he said, "and it was traced back to the sewerage that floated into the town from a sewer located thirteen miles away. I like ice water myself. 'Boiled ice water' would be a new drink, and one that I do not think I should like. I shall want my ice cooked before I use it, however, when the sewerage begins to run into the river."

Growing a Little Every Day. There are many people in this city who are pleased to see the steady and substantial growth of the dry goods firm of Bort, Bailey & Co. All who have watched their progress can already see that they have practically outgrown their present cramped and hand-drawn quarters.

All their friends are glad to know that in a very few days they will be in position to show their large and choice stock in the best lighted and best appointed store room in the city. The line of work pursued by this firm is bound to win confidence, respect and patronage. Each member of the firm devotes every energy to advance the best interest of all their patrons.

They buy goods cheap, they sell them cheap. They buy first class goods, they never buy job lots. They use everybody perfectly fair. They will not take advantage of a customer under any circumstance. They always do just as they advertise and never allow their prices to be beaten by any competitor. We bespeak for them a steady advance.

THE Dazzler. One of the best attractions brought here by Manager Smith is "The Dazzler," which opened its three days engagement in Harmonus Bleeker hall yesterday. The show has much to recommend it—a large company of pretty and talented women, gorgeous costumes and a very amusing play.

The company is about the same as when the piece was given in the old Albany theatre early in the season. Mr. Raymond Findley is as amusing as ever, and Miss Lottie Burke made her usual hit with the audience. Vurry, the giant, and Shorty Healy, the diminutive comedian, took the house by storm. Miss Alice Whitney sang sweetly and was encored several times—Albany Express, March 9, 1894.

Cold Wave Is Coming. Forecast: Fair and colder tonight. Saturday fair but continued coldness except warmer in extreme northwest.

ROAD TAX SYSTEM NEEDS CHANGING

THIS IS THE SENSE OF ROCK COUNTY FARMERS,

The Sentiment Was Shown at the Meeting of the County Board Today Although No Formal Action In the Matter Was Taken—Session Is Now Finished.

Members of the county board showed that it was the sense of that body that the road tax law should be amended, before they adjourned today. The question of improving the roads occupied the board most of the forenoon, the discussion being brought up by a resolution offered by Supervisor Powers, which was more for the purpose of gaining the opinion of the members of the board than of committing the board to any particular system. The opinion prevailed that the present option law should be amended, so that the road tax would be collected uniformly in all the towns and road districts, and the work of improving the highways be done by contract labor. Under the present law, real estate owners are permitted to "work out" their road tax or pay in cash as they may elect. Before any definite action was reached the resolution was withdrawn, the members of assembly understanding that it was the sense of Rock county farmers that the law ought to be amended.

The building committee was granted an appropriation of \$4,500 for the purpose of repairing and caring for the county buildings. Supervisors Powers, Bentley and D. P. Smith were added to the special committee to whom was referred the matter of separating the poor, and Supervisors Mayhew and Egerton were added to committee to contract with the register of deeds in relation to abstracts.

At present the library contains about 500,000 bound volumes and 600,000 pamphlet and newspaper files. It is in the Florentine school of architecture, is of Milford granite, and its general shade is gray.

GASTRONOMIC SCRAPS.

Those who know best say terrapin is as plentiful as ever, notwithstanding periodical calamity howls.

As a general thing, people who cut lettuce with knife and fork will request powdered sugar for ice cream.

Bavarian radishes are a new fad. They grow like large cucumbers, and are served cold, cut in large, thin slices.

England's prejudices do not interfere with enormous purchases of our apples and well beloved Yankee oyster.

No man need quarrel with domestic duck, providing, of course, it is not "done to death," and has onion in the stuffing.

Last year's tiresome literature about this year's oyster is enjoyed as a new novel by many newspaper readers.

It almost chokes the average English visitor among us to admit our roast beef is the equal of any he gets at home.

Roast pork and apple sauce is on the rural bill of fare; ditto that famous "old fashioned apple dumpling like mother used to make."

When civilization reaches a higher standard than has yet been attained there will be a law making it a penal offense to fry instead of broil a chop.

There are many problems presented in life that no man, however learned, can solve. Among them is the alleged chicken croquette at restaurants.

The art of preparing sweet potatoes in various palatable and tempting ways is beginning to be understood North as it has long been in the South.

When Edison has leisure some one should request him to invent something to prevent the smell of boiling cauliflower and cabbage from leaving the kitchen.

Modern physicians laugh at the old theory about eschewing food at bed time for health's sake. They even recommend a bite or nibble before retiring as conducive to sleep and general personal welfare. And so it goes.

PITHY AND POINTED.

It is to be regretted that people who would have done thus and so if they had been there never get there.

From early childhood until I was grown my family spent a fortune trying to cure me of this terrible disease. I visited Hot Springs, and was treated by the best medical men, but was not benefited. When all things had failed I determined to try S. S. S., and was cured. The disease was gone, not a sign of it left; my general health built up, and I have never had any return of the disease. I have since recommended S. S. S. to a number of friends for skin diseases, and have never yet known a failure to cure. GEO. W. IRWIN, Irwin, Pa.

THE GIFT SEASON.

Artistic Possibilities of White Linen and
Crape Papers.

It is not too early in the season to think of holiday gifts, and prudent and farseeing dames and demoiselles are already laying plans for all the beautiful things they intend having ready by Christmastide. With a little care and forethought one may gather together the daintiest materials, have all sorts of embroidery stamped, the working materials matched and ready, and at intervals, by utilizing odd moments of leisure, the pretty things will be finished almost before one is aware of it.

Among the most desirable presents for a lady who has a house of her own is table linen of all sorts, especially the embroidered and decorated squares and doilies. Heavy linen or satin sheeting is one of the best fabrics for working either in silk or linen. It washes exquisitely and always has a rich and fine look, very much more so than any material containing cotton.

HANDKERCHIEF INITIAL.

The shops are full of very fine paper in fancy qualities and colors of every description. Dexterous handling and a little practice enable one to make charming articles of this kind. Lamp shades, boxes, little wall pockets, letter cases, jewel trays—indeed it is scarcely possible to imagine a use to which this may not be put. It makes the daintiest boxes for confectionery, and as some of it is quite strong tiny slits may be made in it and ribbons interlaced and tied in bows. This is a good plan in making these boxes to be sent away, as the ribbons strengthen the paper and prevent breaking.

Anybody who has the means may buy gifts, of course, but it is the present wrought with infinite skill and patience and painstaking that represents most to people of sentiment. Articles for the toilet table are always acceptable, and bracelets never goes amiss. Gloves, hosiery, laces and the like may be given; also handkerchiefs galore, for one rarely has too many of them.

One of the prettiest possible gifts is a half dozen handkerchiefs embroidered by the donor with the name or initial of the person for whom they are intended. This present is suitable for either man or woman, and there will be spare minutes enough between now and Christmas to which to do the embroidery. Cotton is usually chosen in preference to linen a thread for this purpose.

A pretty pattern is given, the letter of which, being simple, may be easily changed, the same spray being used with other plain initials. JUDIC CHOLLET.

FASHIONABLE FANCIES.

Collars Depend on the Size and Shape of the Hat.

Hats are exceedingly pretty, although when one states that six different colors are introduced into one, which is but a large sized toque, the impression is given of crudeness and vulgarity, which impression is incorrect. The combination is so well arranged that the effect is remarkably good and decidedly fashionable.

The hair is worn waved loosely down either side, falling over the ear tips and arranged in a coil projecting outward from the center of the back of the head. Toggles are consequently larger, and the hair arrangement and larger hat necessitate a proportionate elaboration of the neck, which is effected by the introduction of ruffles of black satin and chiffon, which are very soft and very becoming, and which establish a desirable balance between the size of the head, neck and shoulders, a matter that has been often out of proportion to an almost ludicrous extent. Treador hats in black felt are trimmed with big ribbon bows as well as pompons at one side, and shepherd's plaid ribbon is considered excellent style, the hat depending for color on a bandeau of bright pink velvet. Some of the new hats are immense, and dahlias are to be a fashion.

HOUSE GOWN.

ionable flower, requiring, on account of their natural stiffness, very careful treatment. Gardenias and chrysanthemums will also appear on stylish headgear.

Muffs, ruffles and hats or bonnets are being made in suits, the former being done with excellent effect in plaited mirror velvet, branching out at either side from big satin bows, and plain velvet, with just a little fur. All these things, together with smart gowns, are sweetly scented, an up to date modiste having all the best dress cupboards kept perfumed with something specially in favor, Rhine violet being just now the first.

The house gown shown in the sketch is of lilac crepon. The yoke is of ecru lace, and the body of the gown is mounted on it in two plaits behind, but is gathered in front. A full flounce forms a berth, and two flounces headed by a band of lace trim the foot of the skirt. The full, half length sleeves are gathered in by a ribbon bow, with a steel buckle at the elbow. Similar bows adorn the shoulders. The girdle is of ribbon. JUDIC CHOLLET.

We Pay for Ideas

We need TWENTY or MORE original and striking designs for Newspaper Advertisements of **SANTA CLAUS SOAP.** The manufacturer, **W. K. Fairbank Company,** anticipates paying **TEN DOLLARS EACH** for approved drawings with appropriate reading; or \$5.00 each for designs or reading matter only. This offer is open to all. The competition will close December 1. As soon as possible after that date we will pay for accepted designs and return the others. Remember, for complete, acceptable advertisements we pay

\$10 Each

Directions.—Make drawings with black ink on heavy white paper, or card board. Do the work in outline. Elaborate shading will not print well. Space in papers will be four inches square. Draw to larger scale if you prefer, but have design square. The idea is most important. If that is good we can have it redrawn and still give you credit. Avoid poetry. Get up an ad. that would make you buy the article.

Points.—Santa Claus is a pure, high-grade Soap—made for laundry and general household use—a favorite wherever known. Merits generous praise. Sold by all grocers, wholesale and retail.

Do your best, and send results promptly. Address (only)

Mrs. Lydia Vanhise.
Mrs. Lydia Vanhise died at her home in Falk county, South Dakota, November 3, 1894, aged 65 years. She had been very ill for several weeks from typhoid fever. Mrs. Vanhise was one of the early settlers of Rock county, living for many years in the town of Harmony. She left a husband, Dean Vanhise, and four children, Mrs. Lizzie Paul, of Breckinridge, Minn.; Mrs. Etta Kegler and Gilman Vanhise of Dakota, and Wes Vanhise of Hanover. As a neighbor she was always willing to lend a helping hand in time of trouble and sickness. She was a good mother, filling her place so well that her family will be desolate without her cheerful, happy presence. Having lived many years in Christ's service she died strong in the faith.

BRIEF LOCAL CHIPS.

LANDLORD E. D. MILLER of the Hotel Myers received a letter today from his old friend C. G. Conn, the Elkhart, Ind. band instrument manufacturer, notifying him that the instruments for the new Imperial band were shipped last evening. The fact that Mr. Miller and Mr. Conn were old friends, saved a considerable sum of money for the band, and the members all appreciate it fully.

THERE will be a meeting of the republican officers elect and members of committees this evening, at the law office of Jackson & Jackson, for the purpose of settling up matters relating to the recent campaign.
